LEAST FAVOURED NATION

TAXATION NOTIONS IN FENGTIEN

A Mukden dispatch to the Asshi says that the local Japanese
Consulate-General has lodged a strong protest with the Liaoning
Government against the imposition of business tax on Japanese merchants
in Mukden, in utter disregard of Japan administrative power in the
S.M.R. region. Criginally the Liaoning Government arranged to impose
a business tax on both Japanese and Chinese merchants, but in view of
strong opposition has made a concession to Chinese traders and is going
to levy the tax in other way. For Japanese merchants it has made little
concession, and insists on charging business tax on their turnover in
the town plus fixty per cent. as the volume of business done in the
railway region.
